

Information Dissemination in Schools

Checklist 1

ORANGE COUNTY • NEW YORK

Checklist 1

This checklist provides administrators and educators with an efficient inventory of what empirical research and best practice suggests as important considerations when evaluating the status of a school's ability to disseminate information about adolescent suicidal behavior and/or a suicide prevention program. This checklist can be used to quickly evaluate what services and policies your school already has in place (indicated by a "yes") or what services and policies your school may be lacking that may need to be implemented or revised (indicated by a "no"). This checklist corresponds to Issue Brief 1, which provides a more in depth and detailed discussion concerning Information Dissemination in Schools. The intent of this and every other Issue Brief is to provide research-based and best-practice suggestions for how a school may wish to address the issue of adolescent suicidal behavior and ideations. The intention is not to provide definitive declarations for what schools should do because each school will vary in their ability to implement and maintain suggestions mentioned in the Issue Brief.
